

How do I get going to buy and earn commissions?

You can earn in one of many ways.

1. When you buy 20% of the value goes towards your commissions that pays out once a month.
2. When you send a shopping link to a friend, family member or customer and they buy, you get 20% commission on their purchase.
3. You can also add products to a shopping cart to help a customer decide and make it easy for them to choose the right products. They receive the link to the shopping card, make sure their address information is correct, and pay you 20% commission on the sale.
